Summary

Aspiring Electrical and Computer Engineer with strong interest in full-stack development and data analytics. Hands-on experience in .NET Core backend systems, React frontend design, and building real-time applications with clean architecture.

Experience

Software Developer Intern

Present

Virtuosoft Technologies

- Built and enhanced RESTful APIs using .NET for a healthcare application.
- Wrote complex SQL queries and stored procedures to improve database performance and reliability.
- Implemented backend features supporting real-time healthcare data processing.
- Followed clean architecture principles and contributed to scalable system design.
- Utilized Git for version control, managing branches and collaborating effectively within a team workflow.

Education

B.Tech in Electrical and Computer Engineering

2023 – Present

TKM College of Engineering, Kollam

CGPA: 7.2

Higher Secondary Education

2021

GHSS Mankada, Malappuram

Score: 99.3%

High School (SSLC)

2019

NCT EMHS, Malappuram

Score: 95%

Skills

Languages: Python, Java, C, C#

Frameworks: .NET Core

Tools: SQL Server, Git, Visual Studio, VS Code, NumPy, Pandas, Matplotlib

Projects

ML-based Crime Linkage for Residential Burglaries

Developed machine learning models to correlate burglary cases using location, time, and modus operandi features.

Visitor Management System using .NET Core and React

Built a role-based web application with JWT authentication for Admin and Front Desk users, supporting visitor registration, visit scheduling, real-time check-in/check-out tracking, and overstay alerts.

Certifications

- Python Programming – Udemy (2025)
- Joy of Computing using Python – NPTEL IIT Madras (2025)
